

London Care[™]
Passion for Independence, Respect for Choice

London Care: Your care, your choice

At London Care, we understand that chronic illness can bring about major and far-reaching changes to the life you have been used to leading, for yourself and those closest to you.

Dealing with a long-term condition is never easy, so being able to carry on living in the comfort of your own home is invaluable for your peace of mind. With London Care, you can do just that.

Our team is experienced in this specialist field, both in providing practical support and in dealing sensitively with the physical and emotional consequences of a serious or life-limiting condition. With London Care, you will be in the safe and experienced hands of people who respect the wishes and choices of you and your family, so that you always stay in control of your care and remain as independent as possible.

You and your family are the best people to decide how you want to be supported, so we work with you to explore our wide-ranging, flexible care options. We know that caring for you is more than just supporting your health – being able to see the people you care about and do the things you enjoy are particularly important too.

Our careworkers can assist with daily tasks like personal care, light housework, shopping and cooking, more complex requirements like managing medication, managing pain or rehabilitative support, as well as supporting you to meet with friends and relatives and go to places and events that are important to you. We provide regular care reviews for as long as we support you, to make sure we are responding to your current needs.

It is essential that you feel safe and secure in your home, which is why all our staff are directly employed by London Care and undergo a complete Criminal Records Bureau (CRB) and reference check. They also receive full training and are supervised and monitored, with regular appraisals.

Our services include:

- befriending services
- life skills training
- meal preparation
- mobility assistance
- morning and bedtime routine
- shopping
- support with complex health tasks
- support with daily living (including employment)
- support with medicines.

Financing your care

Paying for care may be a concern for you, which is why we will work with you to find the payment option that suits you best.

If your care qualifies to be fully or partly funded by your local council or NHS trust, they can commission and pay for some or all of the service we provide. Alternatively, you can control the funding yourself through a Direct Payment.

You can also pay for our service privately. We can set up a direct debit and send you regular statements of account so that you can see you are spending your money wisely.

We can also discuss other funding options available to make sure you are choosing the best option for your circumstances.
